Rennes, Aug. 29—[Special]—The first of the regular witnesses for the defence took the stand in the Dreyfus courtmartial this morning, He was Paul Meyer, a director in school charts. The witness testified that the bordereau was in Esterhazy's natural hand writing and in support of this claim adduced an abundance of technical and scientific proof. The proof of August down the St. Paul track near the North-

Arthur Girt gave similar testimony. When he was asked if he thought Es-When he was asked if he thought Es about five weeks and was an employe of terhazy's hand had changed, he replied John Thompson & Sons and had to quit \$4,900. in the negative.

M. Labori then asked Gen. Mercier: "When you asked your question about Esterhazy's hand changing, notably, after Mathieu Dreyfus accused him, did you mean that Esterhazy began to write more like the bordoreau?" Mercier replied hastily: "Oh, I did not say." Labori's question was directed to bring out Mercier on the subject of Es-

Emile Picot was the next witness for the defense. He related a conversation which he had last May with Col. Schneider, an American military attache. Schneider branded as a forgery the letter attributed to him incriminating Dreyfus which forms a part of the secret dossier. Schneider accused the witness of his belief in the absolute innocence of Dreyfus.

Gen. Deloye, the last witness for the prosecution, was the next witness. After giving brief and unimportant testimony, a letter from the minister of war was read, absolving Deloye from secrecy in giving testimony.

The court then adjourned after deciding to hold a secret session tomorrow for the purpose of hearing artillery

JANESVILLE, WISCONSIN, WEDNESDAY, AUGUST 30, 1899.

BOARD OF CONTROL REFUSES IS ORDERED TO BE IN READI. NESS.

> This Means That War is at Hand-Conditions in the Transvaal Believed macy, German, Paper Warns

London, Aug. 30.—It is announced that the reserve of the royal artillery has been instructed to hold itself in readiness for service in South Africa. This is the most serious military announcement since the beginning of the crisis. It has been reasonably alleged that previous movements were merely preparatory for eventualities. This points to early action in the field and to the certainty of a conflict.

In the event of war the headquarters staff must turn to the artillery for British infantry-even if 80,000 be sent, as is suggested-will be shot down like partridges by the Boers. The artillery, however, next to the engineers, is made a proposal to the board for a the strongest branch of the land forces, renewal of the contract. War is now discussed here as a certainty. CONVENTION REAFFIRMS THE CHICAGO PLATFORM

First Fight Came When the Committee on Credentials Reported in Favor of Seating the Cuyahogo Delegation-Imperialism, Trusts, Gold Standard, General Griggs, Hannaism and Lynchings Are Denounced-They Profess to Have a Cure for Unlaw. ful Combinations of Capital.

Zancaville, O., Aug. 30—[Special]— The democratic state convention was called to order at 10 o'clock this morning, and is by all odds the largest ever held by the Ohio democrats.

The platform presented by the committee on resolutions, reaffirms the Chicago platform, especially, emphasizing the financial plank therein, and Bryan's renomination is demanded.

They claim that imperialism in the United States is entangling alliances with foreign powers, and a larger standing army is opposed. The use of soldiers to crush and destroy the dawning republicanism in the Orient, is regretted, and the establishment of independent republics in Cuba and the Philippines, is demanded.

Strong Anti-Trust Plank

The platform carries a strong antitrust plank. It declares that unlawful combinations of capital are legitimate fruits of the gold standard and other corrupt republican legislation on the question of tariff, and demands that all articles and prices which are controlled by trusts be placed on the free list.

Attorney General Griggs was bitterly denounced for his refusal to enforce the United States statutes against trusts. A cesation of the national and bonded

debt is demanded and Hannaism and lynchings are denounced. A constitutional amendment, providing for the election of the president, vice president and United States sens tors by a direct vote of the people was

commented upon. Nominated on First Ballot.

George Barker and Henry Scott to Go to . Minneapolis.

George Barker and Henry Scott bave gone to Minneapolis, where they have accepted positions with the Cargill Com-mission company. Their original intention was to go to the Minnesota city next Friday, but Monday they received a telegram requesting them to come at once and they left on the vestibule that night.

It is the intention of Messra. Barker and Scott to thoroughly learn the grain there can be no doubt, as both are hustlers. Their many friends will regret to have them leave Janesville for good but wish them great success in their new undertaking.

FARMERS ORGANIZE TRUST

Combine Started Out with a Capital of \$20,000,000.

WALTER N. ALLEN IS LEADER,

To Be Known as the "Farmers' Federa tion of the Mississippi Valley .- Annual Saving of Millions Predicted by the Founders—To Do Banking Business.

Topeka, Kan, Aug 30 - The Farm ers' Federation of the Mississippi Valley has been organized and officers were elected Tuesday, Walter N. Alden of Meriden is president and business manager.

The object of the federation is to regulate and control the shipment of farm products of all the states in the Mississippl valley to establish and maintain offices, yards, grain elevators, to maintain agents to handle, sell and distribute such products, and to lend and borrow money and do a banking business at Topeka, Omaha, Kansas City St. Louis, Chicago, Cincinnati and New

The capital stock will be \$20,000,000; in shares of \$10 each.

President Allen, in a long statement of the purposes of the federation; says the cost in commissions for marketing the products in the Mississippi valley is over \$21,000,000. He plans that his company shall do this business for the farmers for less than \$1,000,000.

The by-laws provide that there shall De no rebates to shippers or dividends paid to stockholders, and that the surplus earnings shall be reserved to finance a bank department, to pay interest on the bonds of the company and for the purchase of the business and good will of commission-houses.

It is also provided that "to hasten the emancipation of the agricultural classes" there may be issued \$10,000,000 of 5 per cent twenty-year debenture bonds of the company to purchase the business and good will of the commission houses of Chicago, St. Louis, Omaha, Kansas City and New Orleans. In discussing the trust features of his new company President, Allen

"This incorporated, consolidated agency or co-operative plant may be considered a farmers' trust, and was so denominated by the press of the country when organized eleven years ago. Like many other industrial trusts that are now being formed, though, it is an unoffending trust. There is nothing in the by-laws or in the charter in conflict with the interstate commerce act or any of the laws of the several

"Its purpose is not to restrain production or arbitrarily fix prices. It assumes only the power to control shipments of farm products and to thus regulate the supply to the demand in the general markets. If there should appear to be an overproduction we would simply sell enough to meet the legitimate demand for consumption and hold back our surplus in our granaries and on our farms to meet the contingencies of short-crop sea-

The permanent headquarters of the federation will be established in Chicago in a out three months.

Zanesville, O., Aug. 30.—On the face of the returns John R. McLean has fifteen of the nineteen uncontested district delegations, which met in convention today to nominate a democratic state ticket.

If present plans carry, the platform which the convention will adopt will. indorse the Chicago platform as a whole without going into details. In this respect the leading paragraph of the platform will follow closely the Iowa democratic platform.

Window Glass Trust Failure.

-Anderson, Ind., Aug. 30.-Notice has been given that the option on window glass plants which expires Sept. 1 will not be renewed and that the combination which was to have been made has been abandoned. The capital had been fixed at \$37,000,000. The promoters say the injunctions granted by the courts have killed their project, and the trust in window glass is abandoned.

Laurier Going to London.

London, Aug. 30.—The authorities of the colonial office deny a report printed here that an agreement has been reached in regard to the Alaska boundary. The supplanting of Major General Butler by Lieutenant General Sir Frederick W. E. Forestler-Walker in by F. H. Bump. the command of the British forces of South Africa indicates that England regards the Boer situation as critical, for the latter is one of the best gener-

als in the service. Comparatively speaking, Lieutenant General Walker is a young man. He is 54 years old and one of the youngest officers of his rank. He is a Scots guardsman, having joined that regiment as an ensign in 1862 and left it as lieutenant colonel in 1886.

His main foreign and war service has been in South Africa; where he was for several years assistant military

He served in the Kaffir war of 1878, for which he received the C. B., and his conduct also carned him mention in the dispatches. During the Zulu war of 1879 he was the principal staff officer to No. 1 column, was present at the action of Inveyage and formed one of the force shut up in Ekowe. After the relief he served on the line of communication and was in command of Fort Pearson and the lower Tugela district.

He next accompanied the Bechuanaland expedition, 1884-5, in the capactty of assistant adjutant and quarter-master general, and for his services therein received the C. M. G. He commanded in Egypt from 1890 to 1895 and was recently in command of the western district. His promotion to K. C. B. came to him in 1894.

XWINE OF CARDUI

WOMEN WHO WORK.

Sr. Louis, Mo., Aug. 12.

Though only 19 years old, I suffered from pains and female troubles two years. Lasts, spring I got so bad I had to quit work. I had to support myself, and could not afford a high-priced doctor. I got one bottle of Wine of Cardui and that made me feel better. Have now used several bottles and am well. My mother used the Wins for Change of Life and was greatly relieved.

MISS MARGARET WALSH

Many girls and women find it necessary to earn their own living invarious kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for the tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing on the feet, and coming and going at the beck of a superintendent or foreman, induces falling of the womb, leucorrhoza, headache and backache. The pay of women workers is often so notoriously small that when sickness comes they have no money to engage skillful physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small that when a compare requiring smellal cost, and they can act as their own.

NEWSPAPER "WARS."

The Kenosha newspaper war has reached the sue and be sued stage. Better shake hands, call it square, and mend your ways, gentlemen. There is nothing to be made by beginning law suits. The public doesn't care about your troubles, and you should not force them on the people, simply because you have the means of doing so. The days of "the newspaper war" have passed. When rival merchants fall out and abuse each other through their advertisments, the people soon become disgusted with both to commemorate the Columbian annicompetitor's goods or methods is looked an appropriate place in history. The upon with suspicion these days, for the people can judge for themselves. A newspaper is a business enterprise, and if it lives, it must be honestly conducted. When one successful newspaper attacks another successful newspaper, and charges that it is not honestly conducted, the charge is false upon the face of it, for a dishonest newspaper will die as quickly as a dishonest merchant will be forced out of business.

Merchants in all lines of trade have their grievances, real or fancied, against other competitors, yet they find it advantageous to keep the facts from be-coming public. The newspaper has no more right to wash its dirty-linen before the people than a merchant has, and it will surely lose caste with the public if it does so. The people take newspapers to get the news, not to learn of the trou oles of the paper or its employes, and the publication that uses its columns to exhibit its own sore thumb not only imposes upon its readers, but belittles it-

Every boy and young man in Wis consin should read the "Peck's Uncle Ike" column in Peck's Sun, for the young man who takes the advice therein offered will "live long and prosper." The genial ex-governor always had a soft spot in his heart for boys, and talks to them-and of them-like a father, in each issue of his paper.

Then the Milwaukee Merchants and Manufacturers Association gets through Moor entertaining President McKinley on his visit to the Cream City, the chief execu tive will realize that something beside beer has been a potent agent in "making Milwaukee famous"—enterprise, liberality, and energy, for instance.

The accidental fall of the mammoth arches used in the construction of the great Coliseum, at Chicago again calls attention to the fact that "the unexpected always happens." No explanation can be made by the engineers, and the accident that cost nine lives is as mysterious as it is shocking.

"If Roosevelt is a savage" to change President Lincoln's famous remarks to suit the circumstances "let us find out what made him one, and feed the stuff liberally among both the matured men and the growing youth." The American people can tolerate several million savages of the Roosevelt type.

Walter Wellman did not reach the north pole, but thinks he knows where it is, and can direct others to it with the same fluent ease that characterized his management of the government just before the war.

Watlings's Island. Chicago Record: Investigations that were made at the time of the world's fair settled the long controversy about the landfall of Columbus to the satisfaction of nearly all geographers: Rudolph Cronau, a German scientist; Fred A. Ober, an American, and the superintendent of the lighthouse service in the Bahamas, a British naval officer, whose name I have forgotten, made thorough explorations with the logbook of Columbus as their guide. They visited all the other islands in the neighborhood, but none corresponded in any way with the descriptions given by the admiral, while Watling's seemed to fit exactly even the coral reefs and the lagoons that gave him so much difficulty. The light that Columbus saw the night before the discovery was undoubtedly a torch in the hands of some faithful fisherwife held up to guide her husband home. and Albert Biersstadt spent several weeks at Watling's painting a picture parties. The man who criticises his versary and to give that worthy woman members of the board of lady managers from New York state adopted her and her torch as a design for their seal.

Dry Stereatyping.

In a new system of dry stereotyping, adapted to the smallest job or the largest paper, the "flong," which is the subject of the patent, is supplied in sheets, a piece of which, cut to size, is placed on the form and run through the press once, thus forming a matrix, which is lifted and taken at once to the casting box, no drying being required, thus saving a great deal of time, the cast being taken in two minutes or less from the time the sheet of "flong" is laid on the type. No beating is required, thus saving the type much wear and tear. A company has been formed to manufacture 'flong," which promises to meet with an immense demand,

TABLES TURNED IN YESTERDAY'S GAME

LOCAL Y. M. C. A. TEAM WENT DOWN TO DEFEAT.

Rubber Must Be Played to Decide the Championship-Prediction of a Gentleman Before the Battle Came True _Defeat Was Met in the First Inning.

Just before the game yesterday, a gentleman whose knowledge of base ball was not wholly acquired through witnessing Y. M. C. A. games, remarked that the strength of the home nine was decreased fully 33-1-3 per cent: with Sickles in the box in place of Adkins, that Fisher was weak on first, and that he did not see how Oshkosh could lose. When the nine took the field in the first inning they proceeded at once to verify these predictions with a few thrown in for good measure, and before they sought the shade of the grandstand, had succeeded so well as to lose the game in that one inning, and this is the way

After going to bat first and making no runs Sickles gave Hanaford, the first. batter up for Oshkosh, his base on balls and hit Hale who followed. Morrissey sent a grounder right past Sickles which he made no effort to get, Hanaford scored and Hale took third. Morrissey strolled down towards second; McMasters threw to Sickles and he in turn to Allen, who muffed. Hale came in and Morrissey couldn't even suicide. Metzler and Kuhns went out on flies to out field. Bruyette hit to Brown and he fielded to Fisher who caught the ball all' right, but forgot about touching the bag to put the runner out. Bruyette sauntered along towards second. McMasters threw to Allen hit, but was left by the next batters going out three hits and one run. In the fifth after Apel had made his usual strike out. Hanaford reached first on muffed fly by Adkins, but was put out in trying to make third on Hale's single. Then came the ball that looked us big as a watermelon to Morrissey and the lifted it over the fence 'for a home run. Metzler followed with a base hit but Kuhns went out on a fly to Adkins. Two earned runs.

Allen led off in the seventh with base hit. Fisher bunted and got first on lumble of pitcher, but was put out at second on Brown's hit, after Sullivan had retired to foul fix. Then Brown got second and Allen home on sleepy work by Oshkosh. McMasters retired the side on fly to Hale, this time, Bruynette stopped, and while Allen stood looking at him, Morrissey sprinted home. Allen finally awakened threw to Fisher, who returned the ball over Allen's head, and Bruynette was forced to take second after all, where he was left by Crail's out from Sullivan to sale. W.H. Ashcraft first. One very questionable base hit and three runs. Sickles opened the second inning with a base hit, Downs following with a beautiful bunt, on which The boiler is expected soon. Sickles, who had started for second made third. Then Downs started for second, and he managed to get out all right, while Sickles was scorch-ing. Blakely made in nice, base. Oshkosh made one more in the eighth. Hanaford out on fly to Downs. Hale made a two base hit and Morrissey brought him in with another single Morrissey out from Allen to Sullivan on Metzler's hit. Kunns finally made a base hit, but Bruyette went out from Sickles to first. That ended the run getting, and here is the score: JANESVILLE,"

Passed ball MoMasters. Stolen Bases—Brown, Allen, Hale, Morrissey, Metzler, Brummer, Left on bases—Janesville, 7; Oshkosh, 6; Umpire—O. McCarthy. Time of game—1:45.

Notes of the Game.

Whoever gave the tip to Oshkosh to change their second baseman over to shortfield made a great hit as it improved their game wonderfully.

Oshkosh made two double plays and played a susppy game all through, making but two errors, and it is doubtful if Apel could have got his man it he

hadn't fumbled. Morrissev's batting is not so weak as some people seem to think and he did

just as well on the bases yesterday as a real base runner.

Janesville forced Oahkosh to make those three runs in the first inning and Oshkosh tried to reciprocate in the ninth but our boys wouldn't have it. Apel sent Allen and Fisher to base on balls in succession, and was unquestionably groggy, but Fisher helped him out by getting caught off first on a throw from catcher. Then some one said "Allen will get caught off second now and it will be all over." No sooner said than done on throw from pitcher and Sullivan was left at the plate.

Allen had two splendid opportunities for double plays which he failed to im- Clerk

Of the eight Oshkosh men in yester day's game who played on Monday. Sickles failed to strike out one. Apel was his only victim and he got him three times.

After all, Janesville didn't make but

one fielding error on a batted ball.

The Y. M. C. A. nine batted better vesterday than they have against any irst class team, but they were very unlucky in placing their hits with men on bases, and Oshkosh would leave them

no opening.
Sickles was the only man in the anesville nine who struck out. Brown pave a magnificent exhibition

of third base playing.

Blakely caught a nice fly in left field that he came near over running:

Sullivan made a great catch of a tight ball thrown from first over to third.

The Oshkosh players didn't discover until late in the game that they could take second and third. It was not necessary for them to steal on Sickles slow delivery...

It was rumored on the street that there would be two umpires, but when it came to call the game no one cared to officiate. After twenty minutes delay Owen McCarthy was personaded to occupy the position, which he filled very acceptably and the roasters took a day off to watch the game.

John Harnick.

The first death as a result of sunstroke in Rock county this summer occurred yesterday afternoon and John. Harnick, a well known and popular farmer of the town of Center; fell a victim to the excessive heat.

Mr. Harnick was engaged in pitching grain from which laborious labor he became over beated and was suddenly prostrated. The lifeless form was carried into his home and a physician from Evansville immediately summoned but before medical aid could arrrive he was beyond recuperation. It was 2 o'clock when he was stricken and at 4 o'clock he breathed his last. He leaves beside a widow a family of seven children. Mr. Harnick was forty-three years of age. The family have the sym-paty of all in their great bereavement. Mr. Harnick was a gentleman highly respected by all who knew him.

SPAIN'S KING MAY NOT REIGN Alphonso's Prespects of Reaching Throne Are Decidedly Poor

London, Aug. 30.—According to the Daily Mail's Madrid correspondent a grave constitutional crisis is at hand in Spain.

The young king is neither physically nor mentally strong, and there is a general desire for the queen regent to retain the reins of office for some time after he comes of age. This will be in three years' time or when he reaches his 16th year.

There are grave fears of internal trouble, and besides the Carlist danger is not over. In fact, it is said that Don Carlos is now on the French frontier near St. Jean de Luz.

ARRANGEMENTS IN SAMOA.

United States and Germany Belleved to

Be About to Quit Protectorate. Auckland, Aug. 30—It is believed in government circles at Wellington that the Samoan question is on the eve of solution and that the problem will be solved along lines most satisfactory to this colony. It is believed that America and Germany will retire from the tripartite piotectorate leaving Great Britain alone in the field. This arrangement, if it is concluded, will involve the occupation by Germany in the way of compensation, of either the Gilbert, islands, the Marshall archipelago or the portion of the Solomon islands not already under German authority. The Gilbert islands are now in the hands of Great Britain, while Germany exercises over the Marshall archipelago only a protectorate established in 1885.

According to the same report, the United States will be willing to content Itself with a coaling station at Pango-Pango harbor, which it has occupied since .1872.

Enlistments Now Reach 2.764.

Washington, Aug. 30.—Reports received at the war department show that 2,764 men have been enlisted for the volunteer regiments now organizing, 157 men having been secured yesferday. There are 943 men for the Philippine service which are as yet unassigned.

THE WIDE AWAKE

O" Clothing Department

FOR BOYS AND CHILDREN

We have made an addition to our stock that we think will be appreciated by mothers from the fact that the department will give them an opportunity of purchasing Clothing for the boys at a much less figure than is usually asked by other stores for strictly dependable goods. The Clothing we have purchased comes from the best makers in the country and is made up from the late cloth patterns in the best styles. Each will be warranted by us fully as is every article in our store. We can afford to let these goods out for less than the stores that depend on the line for profit, rent, etc., because it is merely one of a great number of departments in our store, and, like our Shoe stock is merely one of the whole stock to bring up our yearly margins.

Home Coming Heroes Are Greeted On Their Return From Fighting In the Far East 41- Some Impressive

BY LIEUTENANT H. R. GAHAN.

น ใหญ่ที่เลี้ยนใหม่ใหม่ใหม่ใหม่เดิมสามาจักเกิด

Home coming volunteers from the Philippines have been arriving in large numbers at San Francisco during the past six weeks. A few are still in the east, waiting for transports or fighting fever in the hospitals, but the greater part of the survivors of the big army of citizen soldiers which crossed the ocean last winter have come home. The people of San Francisco have

greeted each returning regiment with a hearty welcome, but or course the warmest and most enthusiastic reception was reserved for the California soldiers, who were the last to leave

The plan adopted by the war department in regard to mustering out these

FLOWERS FOR THE SOLDIERS.

returning soldiers has been for each regiment to go into camp on the Presidio grounds until the discharges and other papers could be made out. This has not only facilitated matters, but has given the volunteers a chance to recover from the effects of their long sea_vorage.

While the ocean trip has been on the whole a beneficial one to the war worn soldiers, tired out after mouths of hard campaigning, the confinement on a crowded transport is bound to be more or less irksome. Yet it is esti-mated that the Nebraska regiment, weighed 10,000 pounds more when it marched down the gangplank at San Francisco than when the boys went aboard at Manila.

The Presidio camp is an ideal one for the purpose. It has been established so long that all the little conveniences which go to make tent liv-ing comfortable bave become fixtures. The tents, instead of being pitched on the naked ground, are all furnished with neat board floors. The company streets are well laid out and each furnished with a good supply of water. Some of the regiments have gone backto the same spots which they occupied last year, when they were composed of raw militia. Now they are veter-an regiments, each one of them having earned its share of glory in the far east.

Presidio the volunteers are ready to go back to their homes, where they receive final ovations and then gradnally drop back into the prosaic ways of the civilian.

The arrangements made for the return of the Pennsylvanians show to

CHEERING THE RETURNING VOLUNTEERS. what an extent the interest of the citizers of the Keystone State have been aroused. When the regiment landed from the transport, it was met by a large delegation of home people who had come clear across the continent to welcome the heroes back to their native land. At' the camp many things were done for their comfort, and spe-

cial trains made up of sleepers were recently put at the disposal of Lieutenant Colonel Barrett so that his men might make the long overland journey in comfort.

Being the only eastern volunteer regiment that has seen service in the Philippines, the Tenth Pennsylvania seems to have earned for itself the sympathy and interest of the whole country east of the Mississippi. Its progress across the country has been a series of ova-

The Nebraska boys were also greeted at San Francisco by a big Nebraska. delegation, which included Governor Poynter and other prominent officials. Their reception was a type of the manner in which the other volunteers have

been received and is worth describing.
As the parading column swung into Market street, San Francisco's principal thoroughfare, it was in three distinct parts, quite noticeable because of the difference in the uniforms of the men. First came a rollicking band and looking men all in army blue. They were the Third artillery regulars from the Presidio, detailed by Major General Shafter as the government escort to the battle scarred volunteers. People who did not know scanned their ruddy faces and remarked:

used up."

But in a moment they realized their cheeks, weather worn campaign hats faded khaki trousers and leggings, old blue flannel shirts and carrying dingy Springfield rifles and rolls of much used blankets over their coatless shoulders, while battered haversacks and canteens hung about their loins.

The contrast between the home barracks regular and the firing line volunteer from foreign fields was too great not to be appreciated even by a stranger to military appearances. These grant, smiling fellows were the famous Neoraskans.

Behind them trooped the Utah gunners, who themselves have a proud record of 24 engagements, with re-

markable freedom from injuries. Gunless and without blankets, they looked the part of the light artillery that handled field rifles and manned rapid fire small batteries on the river gunboats. Their khaki of peculiar tan and the two little ragged remnants of red guilons fluttering above them told plainly that they were just from Luzon and not from comfortable quarters and good meals at the Presidio.

Just behind them clattered the rest of the artillery escort, 12 six horse teams of glistening blacks with fiery ed blankers, rough riding drivers and field rifles and gun-calssons, each with ts erect and neatly uniformed men in blue perched back to back on the springless seats. Finally rode a blue suited troop of the Sixth regular cay alry from the Presidio, mounted on

The real fighters could not be mistaken. Young Golonel Mulford, who went away a major, rode at their head. and close behind came the regimental band, playing with a spirit of genuine gladness that a wakened a sympathetic

something in every hearer.

At the bend of the Utah artillery ode Major Grant, who has already been asked to take the Republican nomination for mayor of Salt Lake City. His commanding figure and bearded face attracted instant attention.

Similar scenes to this are reproduced on a smaller scale when the regiments are broken up into companies. Each city and town prepares a special reception to the company which it sent to make up the regiment. So that in at least four states there are folks who just now think more of thin faced fellows in worn khaki uniforms than of the common, affairs of life-those affairs which are of importance to bread earners, but which do not stir the heart at all.

PILING UP TESTIMONY

Nothing But Praise From All Sources.

Stands High in the Estimation of Those Who Have Tested its Merits.

There is no doubt whatever as to the merits of Morrow's KID-NE-OIDS judging from the good results obtained right here in this state. Morrow's KID-NEords are used daily by many Janesville citizens and they all testify without any hesitancy about the great good they have received by the use of this great kidney preparation. KID-NEoids will positively cure kidney backache, dizziness, sleeplessness, nervousness and all urmary disorders arising from a disordered condition of the kidneys. Another citizen adds.testimony as follows:

Mrs. P.N. Jenkins, 618 Broad street, Beloit, Wisc., says: If the pleasure ln recommending Morrow's kin ke-ours to any person suffering from kidney backache. A package of KID-NE-olds used according to directo a le-moved the pain from the small of my back, and I have not been bothered with backache since."

Morrow's KID-NE-OIDS are not pills, but vellow tablets, and sell at fifty cents a bix by all druggists and by The People's Drug Co.

The Difference In When You Pay.

Most people are honest---it they were not, but few business houses could continue in trade. The greater share of trading bills, are settled every thirty to ninety days, for convenience sake, perhaps much as anything else. It would not be much more trouble, though to pay for the goods you purchase at the time of buying, and especially knowing that in paying cash there is a saving of a considerable on every article

We Have Lowered Prices on Goods All Through Our Store

To make it an object for cash buyers to trade here. So long as you expect to pay for the goods you buy in thirty to ninety days, at credit stores, why not save the the extra amount on grocties and eatables by trading here for cash.

We can easily convince you that the difference in when you pay And where you pay is worth while taking into consideration.
